Max Planck Institute  
for Plasma Physics,

## Venue by car or public transport:

Please find **above** a map of the IPP showing the security gate, lecture hall, canteen and ASDEX Upgrade. The distance between these three locations is approximately a five-minute walk. Participants are welcome to use the marked parking spaces, but **no parking space** can be reserved in advance.

The underground station (U6) is located right next to the entrance to the institute (also marked on the map), at the **terminus Garching-Forschungszentrum** (please note that the station before this is also called 'Garching', but this refers to the town; **the IPP is located at the terminus**). At the stop, you simply need to follow the signs for '**Max Planck Campus**' and they will arrive directly at the gate where your registration will be checked.
